1) Prototype or mockup of your website using any medium:

My URL: https://alazmann.github.io/homepage/

(It is not the final Webpage, just a very early Prototype)

2) Micro-Manifesto
Who am I:
Andrej – I'm an Informatics and Management of Digital Business student.
Audience & tone:
The Audience for my Portfolio are Professors, fellow Students, Recruiters.
I want to show who I am, what I'm able to do workwise and a bit of what i do in my free time.
UI mapping:

- **Color:** Dark background for focus and contrast → professional and modern.
- **Typography:** Sans-serif (Inter / Roboto) → clear and readable.
- **Layout:** Centered sections, clear hierarchy, visible navigation.
- **Signature interaction:** Smooth scroll & hover highlights → elegant feedback and affordance.
- **Structure:** 4 main sections — Home, About, Projects, Contact.

Contact & commitment:
E-Mail for now (other Social Media Accounts will follow soon)
I do respond as soon as I can (max: 2 workdays)

Accessibility:
High color contrast & large readable text.

3) Trust & Transparency

- "Last updated" footer line.
- No cookies or tracking disclaimers.
- Contact form with transparent privacy note.

4) Short rationale (max 100 words)

For my portfolio, I chose a dark and minimal style to show professionalism and focus. Smooth transitions, subtle hover effects, and responsive design ensure usability across devices, creating a good browsing experience. The layout emphasizes clarity and hierarchy, making content easy to look up and navigate. This approach allows me to build the website step by step, showing progress without it looking like a construction zone, so even early iterations feel complete. Typography, spacing, and consistent visual cues reinforce readability and trust. Some design choices like color palette and interactive elements support a coherent and professional presentation of my skills and projects.

5) Mockup

6) A bit of css and js

```javascript
document.addEventListener('DOMContentLoaded', () => {

    // 1. Typing Effect
    const typingContainer = document.querySelector('.typing-text');
    if (typingContainer) {
        const text = "Human-Computer Interaction Student.";
        let index = 0;

        function type() {
            if (index < text.length) {
                typingContainer.innerHTML += text.charAt(index);
                index++;
                setTimeout(type, 70);
            }
        }
        type();
    }

    // 2. Scroll Reveal Animation
    const revealElements = document.querySelectorAll('.reveal');

    const revealOnScroll = () => {
        revealElements.forEach(el => {
            const elementTop = el.getBoundingClientRect().top;
            const windowHeight = window.innerHeight;

            if (elementTop < windowHeight - 100) {
                el.classList.add('active');
            }
        });
    };

    window.addEventListener('scroll', revealOnScroll);
    revealOnScroll();
})
```

```css
/* Variables for easy theme management */
:root {
    --accent-color: #00d4ff;
    --glass-bg: rgba(255, 255, 255, 0.05);
    --transition-speed: 0.4s;
}

body {
    background: radial-gradient(circle at top right, #1a1a1a, #000);
    font-family: 'Segoe UI', Roboto, Helvetica, Arial, sans-serif;
}

/* Navbar transparency */
.navbar {
    backdrop-filter: blur(15px);
    background-color: rgba(0, 0, 0, 0.8) !important;
    border-bottom: 1px solid rgba(255, 255, 255, 0.1);
}

/* Modern Button Hover */
.btn-outline-light {
    border-radius: 8px;
    transition: all var(--transition-speed) ease;
}

.btn-outline-light:hover {
    background-color: var(--accent-color);
    border-color: var(--accent-color);
    color: #000;
    box-shadow: 0 0 15px rgba(0, 212, 255, 0.4);
}

/* Reveal Animation classes */
.reveal {
    opacity: 0;
    transform: translateY(20px);
    transition: all 0.6s ease-out;
}

.reveal.active {
    opacity: 1;
    transform: translateY(0);
}

/* Projects Card Styling */
.card {
    background: var(--glass-bg);
    border: 1px solid rgba(255, 255, 255, 0.1);
    backdrop-filter: blur(5px);
    transition: transform 0.3s ease;
}
```
